9. ___ / _____				
10. ___ / _____				
11. ___ / _____				

INSTRUCTIONS FOR SCHEDULE VERB

The Voluntary Environmental Remediation Tax Credit (Brownfield) is applied against the individual income tax imposed under KRS 141.020, the corporation income tax imposed under KRS 141.040 and the limited liability entity tax (LLET) imposed under KRS 141.0401. The amount of credit claimed against the corporation income tax and the LLET can be different.

Tax Preparers' Note: The amount of credit claimed from Part I, Line 3, and the resulting balance of credit available must be calculated separately for income tax and the LLET. If the balance available for the income tax or the LLET reaches zero, no further credit is allowed against that tax liability. For example, any balance available for income tax cannot be used as a credit against the LLET nor can any balance available for the LLET be used as a credit against the income tax liability.

Purpose of Schedule—This schedule is used by taxpayers subject to the taxes under KRS 141.020, KRS 141.040 or KRS 141.0401 to claim a credit for expenditures made for a qualifying voluntary environmental remediation property.

The Environmental and Public Protection Cabinet has determined that (1) the responsible parties are financially unable to carry out the obligations in KRS 224.01-400 and KRS 224.01-405; and (2) the property was acquired after March 8, 2005. The credit is for real property. Expenditures may carry over multiple tax periods and are submitted for certification upon completion of the project. The taxpayer must have submitted the receipts to the Environmental and Public Protection Cabinet in proof of the expenditures claimed.

The credit is on a dollar-per-dollar basis up to a maximum \$150,000 in approved expenditures. The amount of the allowable credit for any taxable year is limited to 25 percent of the maximum credit approved (Part I, Line 2). The credit may be carried forward 10 years. The credit may be claimed on the tax return in the taxable year the credit was certified.

General Instructions—If the entity type is not listed, check the "Other" box and list the entity type.

Identification Number—For an individual, list the Social Security number; a general partnership, list the FEIN.

Part I Instructions

This will be completed by the Department of Revenue and mailed to the taxpayer.

Line 1—This is the date the credit is certified by the Environmental and Public Protection Cabinet.

Line 2—This is the amount of expenditures certified by the Environmental and Public Protection Cabinet.

Line 3—This is the maximum amount of credit allowed for any one taxable year.

Part II Instructions

Line 1—LLET Credit—Enter the amount of current-year credit claimed against the LLET. This credit cannot reduce the LLET below the \$175 minimum.

Line 2—Corporation Income Tax Credit—Enter the amount of the current-year credit claimed against the corporation income tax.

Line 3—Individual Income Tax Credit—Enter the amount of the current-year credit claimed against the individual income tax.

Part III Instructions

This will be completed by the taxpayer and used as a tracking schedule for the credit taken.

Column A—Enter the month and year the tax credit is taken for this project.

Column B—Enter for year 1, the allowable credit from Part I, Line 2. Enter for each succeeding year, the difference between Column B and Column C. Compute a separate balance for LLET and for income tax.

Column C—Enter the amount of credit used for that year. If the amount is zero, enter zero (-0-).
